

2018 Super JAM Class Descriptions

- Advanced Acoustic Guitar – You’ve got the basic chords down, now let’s learn how to use scales, new riffs, strumming patterns, and some cool advanced chords.
- Advanced Electric Guitar – I’ve got this great electric guitar and I know how to play some chords and a few lead lines, but what else is there? Through this class learn how to use different pedal effects, interesting solo riffs, and how to fit into a praise band with your playing.
- Advanced Keyboard – The keyboard player in a worship band just plays some nice chords to help support the band...or is there more to it than that? Whether you read music or just chords, learn how to fit into a contemporary worship band with more complex chords, pad and solo sounds, and playing techniques.
- Advanced Photography – This is for the student who has either taken the basic photography class at previous camps or has a lot of experience with cameras. You will have many interesting nature scenes and people in action to capture!
- Advanced Praise Band – You may or may not play in a worship band at your church. But through this class you can learn ways to make your band sound fresh by varying the texture, the style, and the dynamics as you lead worship. For both singers and instrumentalists.
- Art – Do it free hand or use stencils and various kinds of media to express yourself on canvas!
- Balloon Art – Who knew that balloons could be sculpted into fun animals, flowers, and so many other colorful things, plus being used as a witnessing tool?!
- Bass Guitar – This instrument helps set the foundation notes for worship songs. Learn how to play your axe so you are ready to help drive the worship band!
- Beginning Guitar – Learn basic chords and playing techniques on an acoustic guitar so you can help lead songs of praise. Bring your own guitar.
- Beginning Keyboard – Check out some basic chords and playing techniques even without much experience on a keyboard to play easy worship charts. If you have your own keyboard, bring it with you if possible.
- Beginning Photography – What makes for a great photo? You will learn photography basics on a professional style camera (supplied)—framing a subject, aperture, focal length, digital SLR, different lenses.
- Beginning Praise Band with Instruments – Experience chord charts from popular worship songs to learn how to play together as a team. Even band or orchestra players can take part. We will help you fit in. Just don’t forget to pack your gear!
- Black Light – Do you know what happens when a group puts on white gloves in a dark room with only black light to share a Christian song? The result is awesome!

- Creating Loops for the Worship Band – This is how the pros do it! Learn how to make multi-tracks for your worship band.
- Creative Movement – Poetry in motion! Team up with other students to use your combined bodies and sometimes props to dramatize contemporary worship songs.
- Drama – Are you good at winging it? It doesn't matter. You'll learn to play fun drama games, then learn drama scripts you can use for worship in your own church.
- Drum Set– Learn how to coordinate hands and feet to maintain a beat, use drum fills, and other cool stuff that you can use in playing in a worship band. Bring a drum set if you have one and you have space to pack it.
- Happy Hands Club – Take a worship song; now use sign language to worship God with your hands! It makes you happy, happy, happy!
- Programming Keyboards for Worship Band – A modern keyboard has the capability of so many different kinds of sounds. Learn how to download new sounds that you can use—pads, strings, piano and organ are just a few available.
- Tech Class – Discover what goes on behind the sound board and everything that makes worship exciting in the contemporary church.
- Ukelele – It's like a little guitar, right? Well, kinda. It's amazing what songs you can sing with this funky little instrument. Bring your own uke if possible.
- World Percussion – All kinds of drums from around the world, plus other kinds of percussive instruments make for a fun time!
- Worship Leading 101 – Just pick some cool songs and sing them during worship? No! There is a lot more you need to think about when you create worship that flows and helps people praise God.
- Worship Presentation Software – Learn Easy Worship to integrate video, song text, worship countdowns, and other fun stuff to help your church worship.
- Video – If your phone or device can shoot video learn how to tell funny, serious or compelling stories that you and your new camp friends create!
- Vocal Techniques – Learn about singing on a worship team, handling microphones, exhibiting stage presence, and sharing worship songs.
