

AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

Board of Directors
State Convention of Baptists
in Indiana, Incorporated and Affiliate
Martinsville, Indiana

We have audited the accompanying combined financial statements of the State Convention of Baptists in Indiana, Incorporated and Affiliate (Organization), which comprise the combined statements of financial position as of December 31, 2015 and 2014, and the related combined statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of the Organization as of December 31, 2015 and 2014, and the changes in combined net assets and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

STATE CONVENTION OF BAPTISTS IN INDIANA, INCORPORATED
AND AFFILIATE

Notes to combined financial statements

December 31, 2015 and 2014

1. NATURE OF ORGANIZATION:

State Convention of Baptists in Indiana, Incorporated (Convention) is a medium through which Baptist churches may work harmoniously and cooperatively with each other. The purpose of the Convention is to establish and strengthen Baptist churches in Indiana and to inspire churches to the greatest possible activity in missions, evangelism, Christian education, and benevolent work and to promote a closer cooperation among the churches and harmony of feeling in concerted action in advancing all the interests of the Redeemer's kingdom. This is done through financial support and encouragement to small, newly formed mission works and churches and by organizing special training and other events that promote the church in the areas of evangelism, women's ministries, children's ministries, Sunday school, and student ministries.

Baptist Foundation of Indiana, Inc. d/b/a Indiana Baptist Foundation (Foundation) is a trust agency created by the Convention in 1968. As trust agency, the Foundation manages funds for the Convention, Indiana associations, Indiana member churches, and individual trusts. The members of the Convention approve the board of the Foundation.

2. SIGNIFICANT ACCOUNTING POLICIES:

The significant accounting policies followed are described below to enhance the usefulness of the combined financial statements to the reader.

ESTIMATES

The preparation of combined financial statements in conformity with accounting standards generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

PRINCIPLES OF COMBINATION

The combined financial statements include the activities and balances of the Convention and Foundation (Organization). Intra-organization transactions are eliminated for combined financial statement presentation. The combined entity is referred to as the Organization in these combined financial statements.

The combined financial statements of the Organization have been prepared on the accrual basis. Under the accrual basis of accounting, income is recognized when earned rather than when received. Expenses are recognized when incurred rather than when paid.

AND AFFILIATE

Notes to combined financial statements

December 31, 2015 and 2014

2. SIGNIFICANT ACCOUNTING POLICIES, continued:

PRINCIPLES OF TAXATION

The Organization is exempt from federal income taxes under Internal Revenue Service Code (Code) Section 501(c)(3) and is also exempt from state income taxes. Contributions to the Organization are deductible for federal income tax purposes. The Organization is considered publicly supported for purposes of the IRS private foundation regulations under Internal Revenue Code Section 509(a).

As of December 31, 2015 and 2014, the Organization had no uncertain tax positions that qualify for recognition or disclosure in the combined financial statements according to the *Income Tax* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

NET ASSETS

Unrestricted amounts are those currently available at the discretion of the board for use in the Organization's operations and those resources invested in land, buildings, and equipment, net of related debt.

Temporarily restricted amounts are those stipulated by donors for specific operating purposes or those not currently available for use until commitments regarding their use have been fulfilled.

Permanently restricted amounts are those which represent permanent endowments where it is stipulated by donors that the principal remain in perpetuity, and only the income is available as unrestricted or temporarily restricted per endowment agreements.

CASH AND CASH EQUIVALENTS AND CREDIT RISK

For purposes of the combined statements of cash flows, cash and cash equivalents include cash on hand and in the bank. While at times the Organization's cash and cash equivalents may exceed federally insured limits, the Organization has not experienced any losses in such accounts. Management believes it is not exposed to any significant credit risk on these accounts.

ACCOUNTS RECEIVABLE

Accounts receivable consists of funds due from affiliated Southern Baptist agencies, accrued interest on investments and other miscellaneous receivables. Accounts receivable are reported net of allowance for uncollectible amounts as determined by management. Accounts receivable totaled \$454,898 and \$57,701 at December 31, 2015 and 2014, respectively. Management believes all receivable balances are collectible; therefore, no provision for uncollectible accounts was made.

STATE CONVENTION OF BAPTISTS IN INDIANA, INCORPORATED
AND AFFILIATE

Notes to combined financial statements

December 31, 2015 and 2014

2. SIGNIFICANT ACCOUNTING POLICIES, continued:

CONTRIBUTIONS RECEIVABLE

Contributions receivable (unconditional promises to give) are recognized as income when made. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using risk-free interest rates applicable to the years in which the pledges are to be received. Management believes all receivable balances are collectible; therefore, no provision for uncollectible accounts was made.

PREPAID EXPENSES AND OTHER ASSETS

Prepaid expenses and other assets consist of various expenses paid in advance and inventory items.

Inventory is reported at the lower of cost of market value and consists of office supply items used in printing and publication. Inventory totaled approximately \$11,692 and \$8,032 at December 31, 2015 and 2014, respectively.

ASSETS HELD FOR FUTURE MINISTRY

Assets held for future ministry consist of church properties that have been deeded to the Convention. The Convention has planted new churches in these areas. Once the church plants are determined to be a viable ministry, the Convention will deed the property back to the church.

INVESTMENTS

Investments are reported at fair value.

Investments with a fair value of \$1,952,400 and \$2,464,606 were held in investment portfolios with the Baptist Foundation of Oklahoma (BFO), Fidelity Investments, and Wesleyan Investment Foundation (WIF) at December 31, 2015 and 2014, respectively. These investments consist of church building loan funds and individual deposit accounts, and are reported at estimated fair value using reasonable valuation methodologies. Term investments held at BFO are cash and cash equivalents invested in church building loans of Southern Baptist churches and entities. Interest is paid at maturity.

CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Organization to credit risk include unsecured deposits with the Baptist Foundation of Oklahoma totaling \$80,719 and \$958,977 at December 31, 2015 and 2014, respectively.

LAND, BUILDINGS, EQUIPMENT, AND DEPRECIATION

Items capitalized as land, buildings, and equipment (including furniture and fixtures) are reported at cost or market value on the date of donation if donated. Depreciation is reported on the straight-line basis over the useful lives of the assets. Purchases equaling or exceeding \$1,500 are capitalized and depreciated over a three to five year useful life for equipment and 30 years for buildings.

STATE CONVENTION OF BAPTISTS IN INDIANA, INCORPORATED
AND AFFILIATE

Notes to combined financial statements

December 31, 2015 and 2014

2. SIGNIFICANT ACCOUNTING POLICIES, continued:

LIABILITIES UNDER TRUST AGREEMENTS

As trustee, the Organization administers irrevocable trusts, including charitable remainder unitrusts. These trusts provide the payment of lifetime distributions to the grantor or other designated beneficiaries. The present value of the income interests are reported as trust liabilities using federal discount and mortality tables. At the death of the lifetime beneficiaries, the trusts provide for the distribution of assets to designated remaindermen. The present value of the remainder interest of the Organization is reported as temporarily restricted contributions in the period received, temporarily restricted net assets, and as a reclassification to the unrestricted net assets or restricted per the trust agreement when the trust matures.

SUPPORT, REVENUE, AND RECLASSIFICATIONS

Support is recognized when contributions are made, which may be when cash is received, unconditional promises are made, or ownership of other assets is transferred to the Organization.

The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated amounts. When a stipulated time restriction ends or purpose restriction is satisfied, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the combined statements of activities and changes in net assets as net assets released from restrictions.

The Organization reports gifts of property and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Contributions to the Cooperative Program of the Southern Baptist Convention (SBC) are based on a percent of the Cooperative Program gift as approved by the Organization.

Revenue is recognized when earned (see Note 11).

FUNCTIONAL ALLOCATION OF EXPENSES AND JOINT COSTS

Expenses, including all advertising costs, are reported when incurred. The costs of providing various program services and supporting activities have been summarized on a functional basis in the combined statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the program services and supporting activities benefited. The Organization incurred no joint costs for the years ended December 31, 2015 and 2014.

CONTRIBUTED SERVICES

Contributed services are recognized for those that improve or enhance property and equipment (as contributions and increases to the basis of land, buildings, and equipment) or for those that require specialized skills (as contributions and expenses). There were \$34,605 and \$45,100 in donated labor for the years ended December 31, 2015 and 2014, respectively.

December 31, 2015 and 2014

2. SIGNIFICANT ACCOUNTING POLICIES, continued.

CONCENTRATION OF SUPPORT AND REVENUE

Revenue received by the Organization is primarily from churches within Indiana and affiliated agencies of the SBC. The Cooperative Program contributions come from churches in Indiana. The Organization has experienced 70-80 percent participation from churches in the state for this program, which represents approximately 37 percent and 42 percent, respectively, of the total support and revenue as of December 31, 2015 and 2014. Other program support is generated primarily from the North American Mission Board of the SBC.

DISCLOSURES ABOUT FAIR VALUE OF ASSETS AND LIABILITIES

The Organization uses appropriate valuation techniques to determine fair value based on inputs available. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs were not available.

Fair values of assets measured on a recurring basis at December 31, 2015 and 2014, are as follows:

| | Fair Value | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

Valuation techniques: The balanced pool assets consist of domestic and international equities, and fixed income instruments with quoted market prices. The fair value of the term investments with the BFO are based on cost, which approximates fair value. The fair value of publicly traded equities is determined by reference to quoted market prices and other relevant information generated by market transactions. The fair value of money market funds are based on cost. The fair value of the partnership is based on the Foundation's interest in the appraised value of the partnership.

ADVERTISING COSTS

The Organization expenses advertising costs as incurred. The Organization incurred advertising costs of \$18,591 and \$20,281 for the years ended December 31, 2015 and 2014, respectively.

RECLASSIFICATIONS

Certain reclassifications have been made to prior year combined financial statements to conform to the current year combined financial statement presentation. These reclassifications had no effect on the change in net assets.

4. CHURCH LOANS RECEIVABLE:

Church loans receivable consist of church loans ranging in term from 3 to 30 years with 4.25 percent to 6.00 percent annually compounded interest rates. These receivables are collateralized by a security interest on the underlying church properties, which are all located in Indiana. An allowance of \$25,000 and \$20,000 was reported as of December 31, 2015 and 2014, respectively.

Loans receivable will mature as follows:

| <u>Year Ending December 31,</u> | <u>Principal Reduction</u> |
|---------------------------------|--------------------------------|
| 2016 | \$ 146,792 |
| 2017 | 147,426 |

7. DEPOSITS HELD FOR OTHERS:

Deposits held for others are available only to individuals, churches, and other organizations affiliated with the SBC. Deposits are redeemable upon 30 days advance written notice. Interest is variable and compounded monthly. At December 31, 2015 and 2014, the annual percentage rates ranged from 1.00 to 3.00 and 1.00 to 3.31 percent, respectively.

As of December 31, 2015 and 2014, all investors were affiliated with the Convention.

The fair value of these investment accounts is the amount payable on demand at the balance sheet date of presentation.

As of December 31, 2015 and 2014, the Foundation had investors with aggregate balances of \$100,000 or more, respectively. The balances over \$100,000 are distributed as follows:

| Investment Account Balances | December 31, 2015 | | |

8. MORTGAGE PAYABLE:

A \$500,000 mortgage was obtained to construct a new worship center/dining hall and purchase additional property at the Organization's camp. The loan was increased in 2004 to purchase the additional property and refinanced with a 15-year term loan with interest fixed for five years at 5.5 percent. In 2013, the mortgage was fully refinanced with the Indiana Baptist Foundation with a 15-year term loan with interest at 4.5 percent and adjustable every three years. This transaction is fully eliminated as an inter-company transaction in the combined financial statements. The mortgage is secured by all business assets located at the executive office building at 900 North High School Road, Indianapolis, Indiana and all business assets located at Highland Lakes Baptist Camp, 7605 IN-39, Martinsville, Indiana. On December 30, 2015, the Convention sold its property at 900 North High School Road, Indianapolis, Indiana, for \$850,000 and used a portion of the proceeds to pay in full the remaining balance on the mortgage.

The Organization was in compliance with all financial and reporting covenants at December 31, 2015 and 2014.

INTERPRETATION OF RELEVANT LAW

The Board of Directors has interpreted the Indiana State Prudent Management of Institutional Funds Act (ISPMIFA) so that the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment that are made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added or deducted from the fund.

The remaining portion of the donor-restricted endowment funds that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by ISPMIFA. In accordance with ISPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the Foundation and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Foundation
7. The investment policies of the Foundation

FUNDS WITH DEFICIENCIES

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or ISPMIFA requires the Foundation to retain as a fund of perpetual duration. As of December 31, 2015 and 2014, the Foundation had deficiencies totaling \$22,844 and \$47,672, respectively. In accordance with GAAP, deficiencies resulted from unfavorable market fluctuations that occurred shortly after the investment of new permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Directors.

RETURN OBJECTIVES AND RISK PARAMETERS

The Foundation has adopted investment and spending policies for endowment assets designed to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended over the long-term to earn an annualized total-rate-of-return of five percent, net of expenses and fees. Actual returns in any given year will of course vary.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVE

To satisfy its long-term rate-of-return objectives, the Foundation seeks investment returns through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on fixed investments to achieve its long-term return objectives within prudent risk constraints.

HOW THE INVESTMENT OBJECTIVES RELATE TO SPENDING POLICY

The Foundation uses a method based upon the total return on assets to determine the amounts distributable from endowments held as trustee and amounts appropriated for expenditure for endowments under which the Foundation is the income beneficiary in conformity with ISPMIFA. In each quarter of the year, the net earnings from investments is allocated to the trusts based on the balance of corpus and undistributed earnings. The net earnings come from any traditional income (bond interest and stock dividends) earned in that quarter and is supplemented from the trust's net appreciation over the fair value of the original gift. If the market value for a given trust is less than the fair value of the original gift in any given quarter, the portion of net earnings that is not traditional income is reinvested and will not be held in the trust for distribution.

10. EMPLOYEE BENEFIT PLANS:

RETIREMENT BENEFITS

All employees working more than one-half time are covered by a 403(b) retirement plan. Employer contributions depend on term of service but do not exceed 15 percent of salary and housing allowances. Employees may also elect to reduce their salary and make tax-free contributions to the plan. Employee contributions are limited in amount by IRS regulations. Employer payments to 403(b) retirement plans were \$117,413 and \$136,624 for the years ended December 31, 2015 and 2014, respectively.

OTHER EMPLOYEE BENEFITS

All employees working 30 or more hours per week are provided life, medical, and disability coverage. The medical coverage extends to all eligible staff. The coverage also extends to administrative staff dependents hired before 2005 and requires no premium participation by the employee.

11. REVENUE:

Revenue consists of:

| | Year Ended December 31, | |
|-----------------------------|-------------------------|-------------------|
| | 2015 | 2014 |
| Gain on sale of property | \$ 732,491 | \$ - |

12. AGENCY ASSETS AND LIABILITIES:

The Organization receives and remits designated funds from and on behalf of multiple local churches. Some of these funds constitute an agency relationship; they are Lottie Moon, Annie Armstrong, and World Hunger. The assets are commingled in cash, and the liabilities are included in accounts payable (see Note 6). The agency liabilities included in accounts payable at December 31, 2015 and 2014, were \$390,101 and \$465,284, respectively.

13. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK:

Accounting principles generally accepted in the United States of America require all entities to disclose certain information about their financial instruments. Specifically, all entities are required to disclose the risk of an accounting loss from a financial instrument. The possibility that a loss may occur from the failure of another party to perform according to the terms of a contract represents credit risk.

The Foundation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments are commitments to extend credit and involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the combined statements of financial position. The contract amounts of those instruments reflect the extent of involvement the Foundation has in those particular classes of financial instruments.

The Foundation's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit is represented by the contractual notional amount of those instruments. The Foundation uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments are fixed as to the maximum dollar amount that is available to a particular customer. The making of the commitment itself may require the payment of a fee. Not all commitments have the full amount of the approved funds advanced upon execution of the loan, and some do not fully utilize the entire commitment established. Consequently, the total commitment amounts do not necessarily represent future cash requirements. As of December 31, 2015, the Foundation did not have any outstanding loan commitments.

The credit worthiness of each loan applicant is assessed on a case-by-case basis. The Foundation makes loans only to Southern Baptist organizations that would qualify under Section 501(c)(3) of the Code as tax-exempt organizations. The purpose of the loans is to enable churches, schools, and other organizations associated with Southern Baptists to acquire and develop land, build facilities, or remodel and expand existing facilities with reasonable financing costs. Other credit considerations are represented by the terms of the loan, loan to value ratios, and other credit factors. Currently, the interest rate charged is 5.00 percent to 6.00 percent. The Foundation maintains a policy to review all loans monthly to determine past due or delinquent status based on contractual terms and how recently payments have been received. The Foundation maintains an allowance on the receivables, which was \$25,000 and \$20,000 as of December 31, 2015 and 2014, respectively. As of December 31, 2015 and 2014, the Foundation considered one loan delinquent.

13. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK, continued:

In most instances, the ability of these organizations to repay loans will depend primarily upon the contributions they receive from their constituents and fees or other related charges assessed for services rendered. The number of constituents of these organizations, and the amount of contributions they receive may fluctuate. Further, the Foundation is motivated by factors other than commercial and/or profit motives only. This may affect how it deals with its borrowers.

14. SIGNIFICANT GROUP CONCENTRATIONS OF CREDIT RISK:

As disclosed under the caption "Financial Instruments With Off-Balance Sheet Credit Risk," the Foundation makes loans only to not-for-profit organizations that would qualify under Section 501(c)(3) of the Code as tax-exempt organizations. These consist of churches, schools, and other organizations associated with Southern Baptists. As of December 31, 2015 and 2014, the Foundation's loan receivables from those organizations are as disclosed in Note 4.

15. COMMITMENTS:

OPERATING LEASE

Lease expense was \$67,883 and \$67,391 for the years ended December 31, 2015 and 2014, respectively. During 2010, the Organization began entering into new operating leases for cars that expire based on miles, not a monthly term. Due to the usage variable, the maximum possible lease expense is included in the amounts reported below. Future lease payments are due as follows:

16. POST-RETIREMENT BENEFITS OTHER THAN PENSIONS:

The Convention provides health care benefits to retired employees. These benefits are not paid in accordance with a formal written plan, and while there has been a past practice of paying these benefits, the Convention is not legally required to continue to pay any of these benefits in the future. At the discretion of the executive board, the Convention currently funds these benefits out of ongoing operations and the benefits are subject to the future availability of funds. Certain benefits are contributory; other benefits are non-contributory based on age and years of service. In accordance with the *Compensation-Retirement Benefits* topic of the FASB ASC, the Convention is required to recognize the funded status of its post retirement benefits measured as the difference between plan assets at fair market value and the benefit obligation in its combined statements of financial position.

Effective in 2000, the Convention began paying the premiums for Medicare supplement coverage based on years of service for those retiring from the Convention. Employees retiring from the Convention must have a minimum of 10 years of service and be at least 60 years or older to be eligible.

The post-retirement health care benefit obligation was calculated as of December 31, 2015, using the previous benefit provisions that included coverage for Medicare supplement coverage.

The plan is funded when payments are made as premiums become due. Total payments under the plan were \$17,581 and \$16,722 for the years ended December, 31, 2015 and 2014, respectively. The cost is allocated by function and is included in administration costs.

16. POST RETIREMENT BENEFITS OTHER THAN PENSIONS, continued:

In September 2009, FASB issued the provisions of the *Compensation-Retirement Benefits* topic of the FASB ASC. The topic requires an employer that sponsors a defined benefit post-retirement plan to report the current economic status (the overfunded or underfunded status) of the plan in its combined statements of financial position and to include enhanced disclosure provisions of the topic for the fiscal year ending December 31, 2008, and thereafter.

Changes in discount rate, mortality assumptions, and demographics constitute a change in estimate. The effect of the change in estimate reported in the combined financial statements was \$19,343 and \$132,447 for the years ended December 31, 2015 and 2014, respectively.

For measurement purposes, 100% of those currently electing coverage are assumed to take post-retirement medical benefits upon retirement. Upon Medicare eligibility, retirees are enrolled in a Guidestone Medicare supplement insured plan. The assumed rate of increase in per capita cost of health care benefits was 5% and 5% for 2015 and 2014, respectively, and is assumed to decrease linearly each year to an ultimate rate of 3.20%.

STATE CONVENTION OF BAPTISTS IN INDIANA, INCORPORATED
AND AFFILIATE

Notes to combined financial statements

December 31, 2015 and 2014

17. MANAGEMENT'S DISCUSSION REGARDING FINANCIAL CONDITION:

In order to restore negative unrestricted net assets, the Convention board has directed management to increase the monitoring of both revenue and expenditures. Program services and overhead expenses have been reviewed and reduced as necessary, and increased contributions are being sought through a cooperative program challenge with Southern Baptist Convention churches throughout the state to produce positive cash flow.

The Convention's board and management believe these measures will curtail further deficit operations, restore negative unrestricted net assets, and lead to fiscal operations that will enable the accomplishment of its mission and vision.

18. SUBSEQUENT EVENTS:

Subsequent events have been evaluated through the report date, which represents the date the combined financial statements were available to be issued. Subsequent events after that date have not been evaluated.
